

# Visiting Gardens Committee(VG)

## Annual Report 2020-2021

During 2020-2021 the Visiting Gardens Committee(VG) suspended all International tours and put all domestic visits on hold.

Other news from VG for the year includes the addition of the On The Road tours. Previously they were a separate entity. Once these tours resume they will be the responsibility of VG.

Garden club members are reminded that once travel restrictions are fully lifted, visits to other member gardens will be resumed. Contact your club VG chair to arrange such an outing. Members are encouraged to open up their gardens to visitors from other clubs. This involves filling out a short form found on the GCA website:

The completed form should be submitted to the VG club chair.

Another valuable travel resource for all GCA members is the Public Gardens Resource List compiled by Garden Club of America:

Safe travels in 2021-22!

Respectfully submitted,
